Impurities of the Blood.

In selecting the most appropriate medicine (c. a particular adment, there may be some difficult unless one can be found to purity, regulate, are improve the quality of the blood. These Pi.-possess and exert these three qualifications in an extraordmary degree. They enable the stomact to digest any ordinary food, increase the secretory powers of the liver, cleanse and purity the bloody expel all morbid matter, and throw into the circulation the purest clements for sustaining an repairing the frame.

Weakness and Debility.

How many persons suffer from debility without knowing the causes why they are feeble! In mescases the stomach is the aggressor. Holloway Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are therefore confidently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Diseases of the Head and Heart. Diseases of the Head and Heart.

These formidable diseases are, unfortunatelof frequent occurence; tor the most jart they
creep on gradually, but may be prevented by
proper precautions. Holloway's Pils are the
surest perservatives against ail derangements of
the brain and are the speedlest correctors of
irreg-lar circulation. If they be taken without
delay when trighing in the limbs, drowsiness, er
giddless comes on, the effect will be marveleus.

Females of all Age, and Classes. Females of all A; es and Casses.

The fame of these Pills is partly based upon the beneficial effects they have upon the censt; tutions of females. From the demestic servant to the percess, universal favour is accorded to them for their invigorating and purifying proyerties, which ruder them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical period—may be radically removed by a recourse to these Fills.

All Disorders affecting the Liver, Stomach

and Bowels.

Whenever the stomach, liver, or bowels are discordered by high living, climate, over-indulgence, undue exertion or other causes, those fine regulating Pilis will soon recity the evil. and speedig bring back energy, strength, and cheerfulness to the frame where previously all was lassitude, gloom, and dejection.

The misery o casionad by a disordered digestion it unfortunately, felt by most. These tamous Pilis should be taken in appropriate doses, to rights the disturbed functions. They dispel headache, billiousness, nausea, lowness of spirits, and ail similar allments. A course of these invaluable purifying Pilis never fails in renoving the couse of such morbid affections, without subjecting the sufferer to any inconvenience.

Despondency, Low Spirits.

Influenza, Dipthoria, Bronchitis, Coughs and Colds,

In our changeable climate, few persons escape without colds, sore throats, in fluenza, dighteria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty of effecting a cure While the Pills are expelling all impurities from the body generally. THE LEGISLATIVE ASSEMBLY.

After a storm we must, in the natural course of things, expect a calm. After the boisterous Committees of Supply and Ways

and Means, it was only natural to look for a respite. We are afraid, however, that the physical laws in this instance have not exactly been followed, that in fact the reaction has been much greater than the action. The Legislative Assembly seems literally exhausted. The members resemble Shakespeare's schoolboy going "unwillingly to school" or the wounded snake that "drags its slow length along." Day after day the House is counted out, in the absence of a quorum; and the business of the country goes by default. DeCosmos, Dickson M'Clure, and the ever punctual Speaker, are the only attendants, the only persons who seem just now to think that there is any public work to be done. The bill of supply has never yet been introduced, the bills ordered by the Committee of Ways and Means are still in embryo, the other necessary measures which are in various stages of progress remain in statu quo. By and by we shall hear of the "nine months' incubation," simply because the people of Vancouver Island are foolish enough to return members of Assembly who either cannot or will not attend to their legislative duties. The evil, however, does not end here. The few mem bers who are disposed to do their duty have an undue share of legislative work and an undue share of responsibility thrown upon their shoulders; while the other members walk about as careless and as indifferent as if they had no interest in the legislation of the country, and no interest in the welfare of their constituents. And these are the very men who, when in the House, will clamor against suspending the rules to facilitate public business. Their idea, if it is not to spin the session out and make a burlesque of legislation, has at least that appearance. It is time, however, this playing with responsibility should cease—time that public men who cannot attend to their public duties should come forward like honest men and resign a trust they are unable to discharge. Had there been anything like punctuality in the attendance of members we should have had to-day the whole business of the session completed, with the exception, probably, of one or two bills. As it is, the most important measures are still in their incipient stage. Bills for abrogating offices and saving the country heavy and useloss salaries are no farther in progress now than they were when the estimates were passed. This is simply disgraceful, and throws a serious responsibility on those members who are persistently trifling with the public interests by absenting themselves from the House of Assembly. What the country wants is the speedy passage of the bil's that are at present in both Houses. If the Legislative Council is determined on evincing t he same obstructiveness which characterised its action last year, the sooner the Assembly and the sooner the people know it the better. If the Executive is determined on coming into collision with the Lower House the sooner the inhabitants are acquainted with the fact the better. Nothing can be gained now by delay. Governor Kennedy has had ample time to watch the effect on the public mind of the action of the Assembly on the estimates. He has seen a monster meeting in Victoria endorse the policy of the House and a similar assemblage at Nanaimo perform a similar operation. Throughout the whole colony there could not be found, we verily believe, fifty people who are not thoroughly, on the constitutional question with the Assembly, and these fifty if they could be obtained would be found to be as a general thing men whose want of experience or want of judgment would entitle them to little or no weight. Wherever the question has been debated in the Assembly, in the press, at the public meeting, or in the Me chanics' Institute, the result has been the same-argument on the popular side and foolish, unsupported assertion on the side of the Executive. In every instance public opinion has shown itself almost unanimous in favor of the power claimed by the House. In the face of all this we as His Excellency to pause before bringing on a conflict that can end in no possible good to any party, but which may create considerable inconvenience both to the Executive and the people. It still rests, as we have said before, with Governor Kennedy to restore those harmonious relations which in 1864 existed between himself and the inhabitantsit still rests with him to command the respect and good feeling of every person on the Island; and we know we are speaking the sentiments of ninety-nine out of every hundred when we say that nothing would afford the

THE ASSEMBLY AGAIN SUSTAINED - THE " CHRONICLE " SNUBBED .- Our unfortunate morning contemporary, which, in its eagerness to espouse the opposite view to ourselves on all public questions, invariably manages to bring ridicale upon itself, suffered another most unkind snubbing at the Institute on Thursday evening. Mr. Lorrimer, an intelligent member of the debating class, having in an unguarded moment been induced to Assembly in regard to the initiation of money votes, brought forward a resolution before the debating class of the Institute denying.

That the Assembly possessed such right. The fight was opened by General Lorimer with considerable skill and judgment, and bis artillery produced some effect the first day.

Bombadier Pidwell, Trumpeter Higgins, and Drummer Dissette marshalled all their forces, consisting of some six or eight rank and its, for the next engagement, and brought the concentrated force of their batteries to bear against the Collosist's stronghold, but to no fided to the over-ment of the day the duty against the Colonses's stronghold, but to no purpose; for, as the sequel showed, after expending all their ammunition in an assault that lasted three nights, the assaulants were completely worsted and driven off the field in shame and confusion. Dropping the figurative, we consider ourselves at liberty to say now that the debate is over that a few artful persons (we except Mr. Lorrimer and inean the Chronicle clique or club?) have endeavored to make use of the Debating Class to further their own political views and private onds. Nothing would have gratified their undisguised spleen more than to have succeeded in getting the Institute to denounce the action of against the Colonist's stronghold, but to no ting the Institute to denounce the action of the majority in the House of Assembly, but the members showed themselves superior to the members showed themselves superior to such unworthy influences and gave a delibe rate and overwhelming vote against these political tricksters and their machinations. The Chronicle may try as much as it pleases to make the Class a vehicle for political power to strengthen its own feeble voice, but before it can hope to meet with any encouragement it must change its tactics,—range itself on the side of the people, and not systematically oppose their best interests as it has been doing for a long time past. A motion sought to be feisted upon the est as it has been doing for a long time past. A motion sought to be foisted upon the Class by the Editor of the Chromele on Thursday evening would have resolved itself into a personal question of Chromele vs. Colonist, in which it is patent who would have fared second best, but the Chairman properly refused to put the motion, when Mr. Disette appealed to the members and the chair was sustained by a sweeping majority.

INTERESTING ANTIQUARIAN RELICS - Some time since, as some men were excavating in the Castle Bailey, at Clare, in Suffolk, Eugland, near the entrance of the railway station, they turned up a gold cross attached to about two feet of ornamental gold chain.

The cross is about an inch and a half long, The cross is about an inch and a half long, with a large pearl at each intersection of the pright and transverse pieces. On the upper side of the cross is a representation of the Saviour, as crucified, with the glory and the crown of thore about His head. On the scroll over Him are the letters 1. N. R. I., for "Jesus of Nazareth, King of the Jews." The same letters, apparently in Lemandie characters, occur on each limb of the cross When a small pin is removed a portion of the upper side of the cross may be taken off; in the cavity is a small piece of word and a minute fragment of granite. Very probably the wood is a supposed fragment of the "true cross," and the pebble a memorial from some sacred locality in the fully Land. In the year 1378, Philippa, Countess of

the whole of the French garrison, forming a square, and with arm, loaded. A battery was also pointed in their direction. The marshal ordering the now comers to draw up in line commanded them to pile arms and then to advance 20 paces. While they were executing that movement, two companies came behind and got between them and their grows. All attempt at disabedience was then appossible. The gendranerie next came forward and took into custody 25, whom they handculled and took to prison. The others inhabit an old convent, where they are to remain until they pass before a they are to remain until they pass before a military tribunal."—Times, 16% Jan.

PARIS EXHIBITION .- On the Hulson Bay Company's what is a block of pine to: warded from British Columbia to the forthcoming Paris Exhibition. The block is about 18 inches thick, and only about 5 feet about 18 inches thick, and only about 5 feet in diameter. Unless the cut was made high up the stem of the tree it strikes us that many specimens could have been found in the neighborhood of New Westminster that would convey a much better idea of the grandour of these giants of the forest. The tree from which it was taken, judging by the marks it bears, is nearly 300 years old.

CAUTION TO MINERS GOING TO BIG BEND -No one should start for these mines without being quite sure that his teeth are in good order. F. W. Cave, Dentist, Trounce Alley, opposite the Colonist office, is still practising his profession at English prices.

Last evening terminated the most intersting and one of the most important debates that have taken place in the debating class since its organization. The subject of discussion was a resolution intro-duced by Mr. Lorrimer, affirming that the Crown alone has the right to originate money bills, and that such a power would be dangerous in the hands of the Legislative Assembly. The matter has occupied three evenings in its discussion, and has elicited the best talent and ability of the class, and has induced a greater amount of political Chinamen. The offence was proved, but the

At the commencement of this debate two weeks ago, low of the class seemed to have given the subject much study or thought, and so very plausibly was it opened in the affirmative, that it seemed quite doubtula to how the vote would terminate; but at the close, so overwhelming seemed the arguments and authorities produced, that only ten persons in a class of fifty could be found to vote for the resolution. The speeches on the previous evening have been commented upon by our morning contemporary, and it may not seem invidious on our part to give a favorable notice of the remarks of the President of the Class, Mr. E. H. Babbitt, which must be accorded as one of the most logical and munity of the Young Men's Elecution Class.

notice of the remarks of the President of the Class, Mr. E. H. Babbit, which must be accorded as one of the most logical and convincing speeches upon the question. Mr. Babbit said that by precedent alone could we judge of and decide upon the question at issue; the Constitution of England was made up of precedents, and although it had been denied by the affirmative side in this debate, that the practice of other colonies could be quoted as authority, they claiming that the practice of the Country that the practice of other colonies so far as an analogous position could be traced was the best possible gaide in the present case, and the evidence was most clearly that the practice of other colonies so far as an analogous position could be traced was the best possible gaide in the present case, and the evidence was most clear that when Canada and Now Brunswick possessed representative institutions similar to our own, their Houses of Assembly uniformly and unquestionably exercised the right to initiate money votes and control and direct their taxation and revenue without any dictation or interference on the part of the Crown; the control of what was termed the Crown revenue was indeed a subject of contention and was only settled by a permanent civil list being voted as a proper of the claim of the claims of Prussia. Resting that was termed the Crown revenue was indeed a subject of contention and was only settled by a permanent civil list being voted. by the House, and after the introduction of responsible government the House also confided to the government of the day the duty of bringing down the estimates, which estimates, however, were still subject to alteration or rejection by the House, the continuance in office of the government depending apon the adoption or rejection of the budget. Such had been the practice of the Eastern colonies and such practice having been confirmed by the Imperial Government became constitutional law, and by such law must the colony of

ing been confirmed by the Imperial Government became constitutional law, and by such law must the colony of Vancouver Island be governed. So far as he was capable of judging, all the authorities that had been quoted as regards the practice of the House of Commons most clearly confirmed the right in the House of Commons; the practice of the Government, through the Chancellor of the Exchequer, in bringing down the estimates, in no way annulled, or denied, the constitutional right of the Commons. The power of originating was still as much in their hands as ever. The Chancellor of the Exchequer belonged entirely to the Commons, and was bound to do thoir pleasure; and when Vancouver Island possessed an administration similar to that of England or either of the Eastern provinces, then we might safely entrust to its hands the introduction of the estimates. In considering the last clause in the resolution, Mr. Babbit displayed more than ordinary ability. This part of the question had been avoided by all previous speakers, but he (Mr. Babbit) considered it as the most important part, and as aiming a blow at one of the most sacred and dear-bought liberties of the people, and, whether as Englishmen

WHAT'S THE MATTER?—There was another ecent out in the House of Assembly yesterday; the Speaker, Messrs. DeCosmos. Dickson and M Clure being again alone in attendance. Are honorable members under the delusion that the work of the session is through? We should think it better for the interests of the country and themselves to fleish what remains to be completed at once and avoid another nine mouths' incubation.

tant part, and as aiming a blow at one of the most seared and dear-bought liberties of the people, and, whether as Englishmen or colonists, he hoped they would not studied the people, and, whether as Englishmen or colonists, he hoped they would not studied to surrounder a point in self-government to unrender a point in self-government and the deen gained by the sacrifice of life, and conturies of toil and indomitable energy of a free-born race. He, without wishing to reflect upon our present Governor as regards his character or ability, did not think the heards of an irresponsible Government as they would be in the hands of fifteen men who were elected from the people by their free suffrage, for it might possibly occur in the history of this colony that a man, rather through patronage than from any extraordicary merit as a statesman, should be sent or interest in the government of the country, than to aggrandize themselves and party than to aggrandize True cross. The cross and chain thus found at Clare are in on excellent state of preservation.

The Revolted Zouaves—A letter from Mexico gives some account of the measures adopted with respect to the Zouaves who had provided at Martinique. Every nurse should consider this invaluable Onement an essential to a well appointed nursery. The Ontment is applicable to any ore, whatever its character. It conducts to health as sure as the compass points to the north.

as sure as the compass points to the north.

Holloway's Ointment and Pills—Palpitation, Shortness of Breath, Propsy.—Inis last amed disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from had to worse, unless proper means of cure be resorted to. In Holloway's universided Ointment and Pills' the drorsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quicks and perseverance in the steady application of fairs noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with succour; the repsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns. HOLLOWAY' OINTMENT AND PILLS .- Fistu

HOLLOWAY OINTHEST AND PILLS,—Fistu las, Files, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these securges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remodies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the surferer has been saved a painful death. In excurations, a few applications of this healing Ointment effect a cure, while the Fills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's. Ointment and Pills, which act so pecularly on the constitution, and so purify the blood that those diseases are cradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rhemmatism, contracted and stiffjoints. The semedicines operato mildty and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

THE BOWELS REGULAR.

Holloway's Pills and Oinyment—Stomach and Kidneys. Between those two organs there exists: close and intimate relation which is demonstrated by the wasting which occurs in all diseases adhering the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They net with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

fluence of the Pills.

Hollowyv's Ointment and Pills—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, case pain, reduce the swelling, restore the frecientation, and exnel the disease. In these complaints, indeed, Holloway's Giument and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happies effect in assisting the Ointment.

HOLLOWAYS PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach renovate the digestive powers, purify the blood, and give strength to the whole system. Suggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evile, and is we common, so universal a c-mplaint, that is a great blessing that such a remedy as thi invaluable medicine should have been discovered. No one need long suffer from judigestion with these Pills ar nand.
